The Lincat conveyor toaster has a high output for such a compact unit, ideal for breakfast buffets, busy hotels and even works canteens.

The conveyor speed and both upper and lower elements are adjustable for precise and versatile control of browning. This exceptional toaster also boasts individually controlled heating elements for one-sided toasting of teacakes, burger buns, and other products. Lincat slot toasters feature powerful elements and extra deep slots. A unique scissor-lift mechanism helps prevent toast from jamming. There is no special installation required with the CT1, you simply plug it in, this toaster is also capable of producing 340 slices of toast per hour. For reliable quantities of delicious golden toast then machine is for you.
